SKILLS

- Machine Learning
- Web Development
- IOT

ACCOMPLISHES

- **SRM - NEXUM25**

  1st Prize in India Engineers Elite Challenge 2025, Department of Instrumentation Engineering, SRM RAMAPURAM, Campus, 29th & 30th March 2025.

- **AAVISHKAR - 25**

  1st Prize Project EXPO, Best Project Award, and won a Cash Prize of 5000.

- IEEE Conference Presenter | Paper under publication

PROGRAMING LANGUAGE

- PYTHON
- JAVA
- HTML, CSS & REACT

LANGUAGE KNOWN

- ENGLISH
- TAMIL

HOBBIES

- GYM
- CRICKET

Motivated Information Technology graduate seeking an entry levelposition in Computer Vision and Python Backend Development where I can apply my skills in Python, Machine Learning, and OpenCV to build intelligent and scalable AI solutions while continuously learning and contributing to innovative technology projects.

EDUCATION

Expected in May 2026
B.Tech INFORMATION TECHNOLOGY (Hons - Cybersecurity)
Vel Tech High Tech Dr.Rangarajan Dr.Sakunthala Engineering College. GPA: 8.17

2022
HSC
DON BOSCO Matric Hr. Sec School GPA: 65%

2020
SSLC
GODSON Matric Hr. Sec School GPA: 80%

PROJECTS

BLINDNESS ASSISTIVE AUDIO VISION SYSTEM

Developed a Blindness Assistive Audio Vision System using Raspberry Pi and camera for visually impaired users. Implemented real-time object detection, text reading, and a guidance system with voice command support.
Tools and Algorithms: Python, OpenCV, Machine Learning, Text-to-Speech (TTS).

SMART ATHLETE PERFORMANCE MONITORING SYSTEM

Developed an IoT-based system to track and analyze "GYM PERSONS" performance in real-time.
Technologies Used: IoT Sensors, Python, Cloud Storage.

GYMSENSE AI – AI-POWERED PERSONAL FITNESS COACHING SYSTEM

Developed a full-stack AI-powered fitness application that generates personalized workout and diet plans while tracking user progress. Integrated a Python-based posture detection system using computer vision to provide real-time exercise feedback.
Technologies Used: React Native, Node.js, Express.js, MongoDB, Python, OpenCV, MediaPipe, JWT

INTERNSHIP

- Learned fundamentals of mobile application development
- Worked on basic app design and functionality
- Successfully completed training and received NSIC certification
